## AMENDMENT IN RESPONSE TO FOURTH OFFICE ACTION

Assistant Commissioner of Patents  
Washington, D.C. 20231

Dear Sir:

In reply to the Official Action of 8 October 2002, the Applicant makes the following submissions.

All pending claims have been rejected under 35 USC 102(b) as being anticipated by Danneels et al US Patent No. 6,266,015. Danneels discloses a method for determining the edges of images from which cartoons can then be produced. There is no reference in Danneels to "stroking the image with a series of brush strokes emanating from remaining features having high special variance" as claimed in independent claim 1. In section USC 102 (b) it is stated that the invention must be "described in a printed publication" the Applicant respectfully submits that Danneels does not meet this criterion. Moreover, section USC 102 (b) requires that the invention was described "more than one year prior to the date of application for patent". In the present application the application was applied for in the United States as referenced on the Official Action on 10 July 1998. Danneels was applied for patent in the United States on 25 February 1998. The Applicant respectfully submits that this is not 1 year prior. No other prior claim is made in Danneels and it is noted that Danneels is not a continuation of an earlier filed US application. Hence, USC 102 (b) is not sustainable.

The Applicant respectfully requests withdrawal of the rejection as improper.

In view of the foregoing it is respectfully contended that all claims now pending in the above identified Patent Application recite a novel and not obvious method of automatically processing an image which is patentably distinguishable over the prior art. Accordingly, withdrawal of the outstanding rejection and the allowance of all claims now pending are respectfully requested and earnestly solicited.

Very respectfully,

Applicant:

KIA SILVERBROOK

PAUL LAPSTUN
